Payment FAQ

Answers to common questions about paying for your order, invoices and refunds.

Which payment methods do you accept?

You can pay with iDEAL, Bancontact, Visa, Mastercard, PayPal and Klarna. With Klarna you can choose to pay within 30 days after delivery. All prices are in euros (EUR) and include VAT.

When is my payment charged?

Payment is charged when you place the order. If a payment fails, the order stays pending for 48 hours so you can try again; after that it is cancelled automatically.

Can I get an invoice with my company's VAT number?

Yes. Every order comes with an invoice by email. If you need an invoice that shows your company name and VAT number, open a support ticket with your order number and the company details, and we will send a corrected invoice within 2 working days.

When will I receive my refund?

Refunds go back to the payment method you used. They are processed within 5 working days after we receive a return, or within 3 to 5 working days after you cancel an order that hasn't shipped. Depending on your bank it can take another 2 to 3 days before the money shows up on your account.

Is my payment information safe?

We never see or store your full card details. Payments are handled by a certified payment provider that complies with the PCI DSS security standard.
