Shipping Policy

This page explains how and when orders are shipped, which carriers we use and what to do if a parcel is late or lost.

Processing time

Orders placed on a working day before 15:00 are processed the same day. Other orders are processed within 1 to 2 working days. While an order is pending or processing you can still change the delivery address or cancel it.

Carriers and delivery times

We ship with PostNL, DHL, bpost, UPS and DPD. The carrier is chosen automatically based on the destination and the size of the parcel.

Delivery in the Netherlands and Belgium takes 1 to 3 working days after shipping. Delivery elsewhere in the EU takes 3 to 7 working days. We currently don't ship outside the European Union.

Shipping costs

Shipping is free for orders of EUR 50 or more. For smaller orders the shipping cost is EUR 4.95 in the Netherlands and Belgium and EUR 9.95 elsewhere in the EU.

Tracking your order

As soon as your order ships, its status changes to shipped and you receive an email with the carrier and a tracking number. You can also ask the assistant for the status of your order at any time.

Late or lost parcels

Tracking can sometimes go a day or two without an update. If the tracking hasn't changed for 5 working days, open a support ticket with your order number and we will start an investigation with the carrier. If the parcel is confirmed lost, we send a replacement at no cost or refund the order in full.
