Warranty

All products sold by SupportAI Store come with a 2-year warranty from the date of delivery, in line with EU consumer law. The warranty covers manufacturing defects and products that stop working under normal use.

Extended warranty

The Lumen Smart Desk Lamp has a 3-year warranty on its LED module. The Aurora Wireless Headphones and the Pixel Mechanical Keyboard have a 2-year warranty; their rechargeable batteries are covered for 1 year, because battery capacity naturally decreases with use.

What isn't covered

The warranty doesn't cover damage caused by accidents, drops, water or other liquids, incorrect use, normal wear and tear, or repairs carried out by anyone other than us or the manufacturer.

How to make a warranty claim

Open a support ticket with your order number, a description of the problem and, if possible, a photo or video. Our support team replies within 2 working days. Depending on the problem we repair the product, replace it, or refund it if repair or replacement isn't possible. Shipping for warranty claims is free.
